SGT Tech Tips

SRS SID-NUMBER

This month's tech tip is to explain the purpose & usefulness of the SID Number - when contacting the SG Support team.

Each vehicle in the SRS Database now has a Unique SID number. This number will assist our support staff as they now have the ability to quickly search for the vehicle you are enquiring about and retrieve further information within seconds.

As a result of this implementation, Call Hold times have been reduced.

Please have this SID number ready to quote when Calling or when you 'TXT' our Support staff. The SID number can be found in the **Quick view** panel and also in the **Middle Panel** (next to key picture)

If the vehicle you are enquiriing about is not in the SRS, Please ensure you communicate this at the start of the call/TXT & have all the relevant information ready.
