MX-V MAGNETIC DRILL PRESS

- **NO POWER NECESSARY**
- **SUPERIOR PERFORMANCE**
- **SMALLER FOOTPRINT**

Cordless Magnetic Drill Press MX-V with switchable magnet technology (MAGRIG), provides superior holding power, weighs less and with a smaller footprint compared to other magnetic drill presses.

Weighing in at only 7 kgs and a foot print of only 190mm x 80mm the MX-V provides **680kg HOLDING POWER** and is effective on thin and thick metal surfaces. The real surprise is it requires **NO ELECTRICITY**.

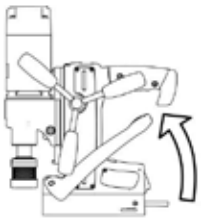

Just flip the switch to stick the rig! The rig comes standard with drill collar for popular 1/2" drills including Metabo, Bosch, Milwaukee and DeWalt corded drills. Additional collar available for the DeWalt 20V Cordless drill.

Place the MAGRIG to the safe & lock the MAGRIG in place.

Turn on the drill & slowly rotate the handles to drill into the safe.

When drilling is complete, simply release the lock & remove the MAGRIG
