CELEBRATING
40 YEARS
OF THE MAAA

MAAA EXPO BUMPER EDITION

SG Lock & Security is a wholesale distribution company with over 70 years experience. Innovation is what drives us. We distribute throughout Australia and New Zealand an expansive range of traditional and modern security products sourced both internationally and locally.

Our company is defined by our 3 Core Values:

Customer Service & Satisfaction

Our customers are our partners and our goal is to provide the best possible service and customer satisfaction

Quality & Value

We supply products that are high quality while at the same time offering great value.

Innovation

We are small enough to listen to our customers and large enough to deliver better solutions for their businesses.

- Repairs any Air Jack
- One size fits all

DAMAGE GUARD

- Protective tape material
- 2" Wide x 100" Long

Autel specialises in the Research and Development, production, sales and service of automotive intelligent diagnostics, detection, and programming systems. Autel products are sold to more than 50 countries and is one of the world's leading providers of automotive intelligent diagnostics.

Established in 2004, Autel is now recognized by the automotive aftermarket industry as one of the fastest growing scan tool companies with their headquarters based in China and flagship offices in North America, Germany, Mexico, UAE, and Japan.

They are driven to provide the most extensive and best price-performance ratio OEM level diagnostic products and first-class customer support in the world with their IM608-PRO leading the charge.

IM608PRO *BEST FOR - INTERMEDIATE LEVEL AUTO LOCKSMITHS*

IM608 TABLET

- Rechargeable Li-ion Battery 15000 mAh
- Internet Updatable via Wi-Fi
- Multilingual Support
- Limited Two Year Warranty
- Touchscreen 10.1-inch
- Memory 64GB
- Processor Hexa-core
- Camera 8.0 Megapixel
- Resolution 1920x1200
- Bluetooth connection to MAXIFLASH (below)

MAXIFLASH JVC1

- Connects the device to the vehicles OBD Port via a standard high density DB-26 MVCI-OBDDII Cable.
- Fully compatible with both SAE J2534-1 and J2534-2 reprogramming standards
- Fast performance ensures quickly reprogramming even the newest controllers
- Wireless with advanced networking functions
- Built-in wireless and data storage
- Rugged design capable of withstanding harsh environments
- Internet updateable

XP400 PRO: DATA READ & CHIP PROGRAMMING FUNCTIONS

Read/Write Data

- Support 400+ EEPROM chip types
- Support 2000+ MCU chip types
- Support 40+ engine ECU chip types
- Support 200+ immobilizer ECU chip types

Key Unlock

- Support 11 key types (Volkswagen/Audi/BMW/Benz)

Chip writing/ Pre-program

AUTEL® IM608PRO

This dedicated Immo Module has been designed with the Locksmith in mind.

The IM608 Immobiliser module is a reflection of 17 years of OEM-Level Diagnostic experience. The **IMMO status scan** screen integrates all the useful information into one screen laying out every function in easy to follow guides **step-by-step**. Selecting this screen automatically displays the parts of the immobiliser system that are relevant. It then runs a fault code scan on these modules prior to programming. All relevant info like Vin, Key Count, Number of Available Key Positions etc. will also be displayed here.

Scan Item	Status
Fault code(DTC)	Reading DTCs...
Fault code(PCM)	Not scanned
Number of programmed smart keys	Not scanned
The specified minimum number of keys	Not scanned

A complete module dedicated to creating immobiliser keys via reading the eeprom or equivalent on the bench.

Replaces the need to buy a secondary eeprom calculation tool.

Over **1400+** different eeprom modules .

This module is unique in that it does not require a secondary Hardware & software to Read & write the data.

The EEPROM can be Read and Key position can be chosen. Then the transponder can be written to the eeprom in one step - by selecting **One-touch Processing**. Alternatively an eeprom file can also be imported if it was read from another tool.

Key Information	Key Position
Vehicle type: Toyota, Corolla, 2004-2006, Immobiliser	Key 1
Original transponders chip: TIRG 4C	Key 2
Allowed transponders chip: TIRG 4C	Key 3
Data location: ESPROM 900M	Key 4
Data size: 512 Bytes	Key 5

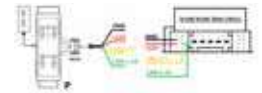

A complete module dedicated to Reading and writing Transponders, EEPROM, Flash & MCU Processors.

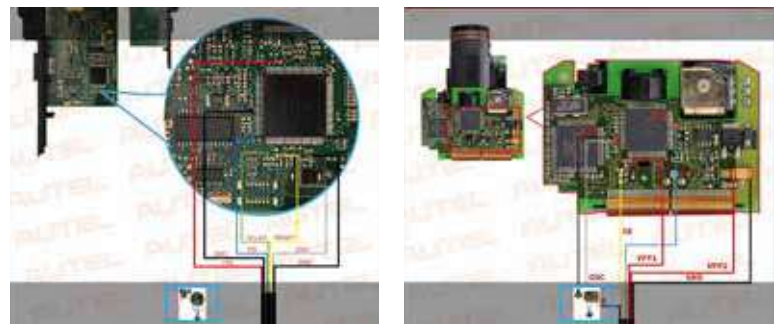

Replaces the need to buy several dedicated Programming Machines.

200+ Diagram's & images for vehicle specific In-Circuit programming, removing the need to remove processors from the PCB.

2000+ Eeprom Flash MCU types supported
96- Ecu Read & write function

Key Chip Read/Write, Key Frequency Detection, Key

NEW

A New module dedicated to the generation of AUTEL Universal Smart Keys

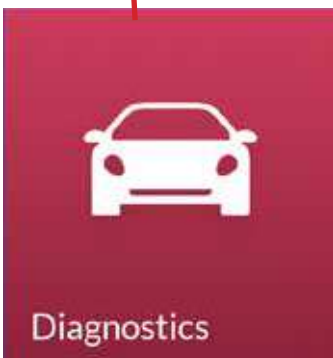

Replaces the need to order smart keys for late model vehicles. AUTEL can generate smart keys onto it's universal smart key range for **49+** Vehicle manufacturers.

All Models referenced with year models for easy selection.

AUTEL smart Keys are generated wirelessly via the UP400Pro programmer

NEW

NEW

Established in 2004, Autel is now recognized by the automotive aftermarket industry as one of the fastest growing scan tool companies providing the most extensive and best price-performance ratio OEM-level diagnostic products and first-class customer support in the world.

The **IM608** also contains a fully loaded OEM-Level Diagnostic facility that can be utilised by Locksmiths to diagnose Immobiliser & Remote system Faults.

Being a dealer level machine - it is also possible to Relink modules & Recode replacement parts when new modules are installed that impact the immobiliser system.

ML20

Restricted Key System

“A great opportunity to support your Association”

The latest Restricted Key System developed for the Master Locksmiths Association of Australasia (MLAA) and proudly supplied by SG Lock & Security.

Designed by the best in the industry with a superior key profile design that ensures the key clamps & cuts correctly and is one of the hardest inline restricted systems to manipulate on the market.

With 4 different key profiles, a massive range of 52 different barrels and a 10-year design registration on ALL 4 Key Profiles (A, B, C & M) you can provide your customer with a TRUE 10-year registration on a multi-profile site.

Design Registration until 2030

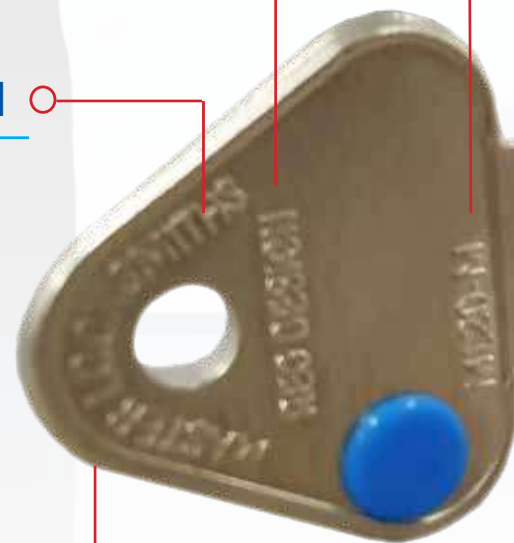

Design Registration provides 10 Years
Legal Protection against Unauthorised
Key Duplication/Production.

MLAA Trusted & Recognised Key Head

Nickel Silver - for strength!

High Quality Nickel Silver Keys
designed to be extremely strong and durable.
Precision colour inserts for easy
identification.

Customer Testimonial

“

As an organisation, we have been very impressed with the ML20 keying platform. The barrel range is more than ample and the assembled product works perfectly in all the housing brands (oval & night latch) that we have tried.

The ability to acquire short-run key blanks is an added feature that we've not had available from any other keying platform before.

This provides us reassurance that when we need to use another of the keyways, we can achieve this with short run blanks until our coined blanks arrive.

SG Locks have done a superb job in bringing this MLAA branded product to the market Thank you to the whole team! ”

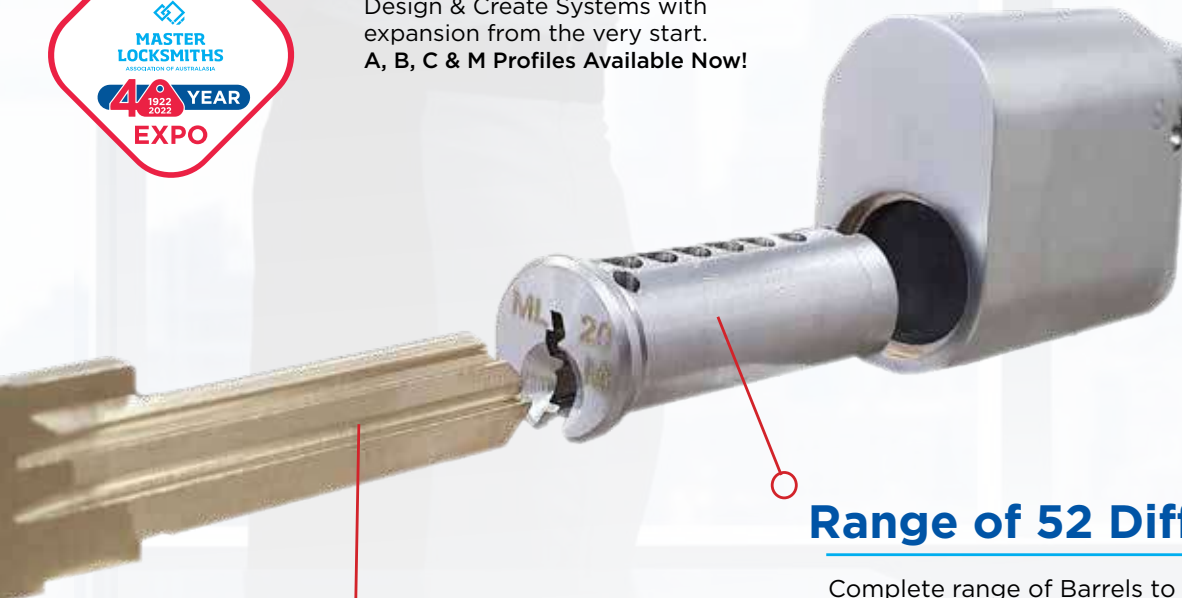

- CLASS LOCKSMITHS

Multiple Profiles (A, B, C & M) Available NOW

The only Restricted System to cater for Large Multi-Profile Sites from Day 1.

Design & Create Systems with expansion from the very start. A, B, C & M Profiles Available Now!

Range of 52 Different Barrels

Complete range of Barrels to suit almost every type of Lock to ensure you can get the job done!

Note: 13 different barrels in A, B, C & M Profiles.

Superior Key Design

The key profile design ensures accurate clamping & cutting every time. ML20's intricate profile designs also ensure it is one of the hardest inline Restricted systems to manipulate.

MX-V MAGNETIC DRILL PRESS

- **NO POWER NECESSARY**
- **SUPERIOR PERFORMANCE**
- **SMALLER FOOTPRINT**

Cordless Magnetic Drill Press MX-V with switchable magnet technology (MAGRIG), provides superior holding power, weighs less and with a smaller footprint compared to other magnetic drill presses.

Weighing in at only 7 kgs and a footprint of only 190mm x 80mm the MX-V provides **680kg HOLDING POWER** and is effective on thin and thick metal surfaces. The real surprise is it requires **NO ELECTRICITY.**

Just flip the switch to stick the rig! The rig comes standard with drill collar for popular 1/2" drills including Metabo, Bosch, Milwaukee and DeWalt corded drills. Additional collar available for the DeWalt 20V Cordless drill.

Place the MAGRIG to the safe & lock the MAGRIG in place.

Turn on the drill & slowly rotate the handles to drill into the safe.

When drilling is complete, simply release the lock & remove the MAGRIG

Minirig®

Art. #MRP

- The Pro Kit includes: the MiniRig and 2 Safe Drill Templates (for drilling S&G, LaGard and Diebold mechanical locks), Universal Dial Puller, plus a fitted Custom Case and it all weighs less than 4.5 kg.
- Precise depth control and accuracy makes safe drilling easy and more profitable. Innovative design, quality construction.
- Quick Disconnect design allows you to remove and replace the MiniRig in seconds from mounting options.
- Best of all, it can pay for itself in one or two openings!

Drill Rig VACUUM MOUNT

Art. #MINIVAC

PRODUCT DESCRIPTION:

StrongArm® MiniVac - Safe Suction Attachment. The light-weight MiniVac quickly attaches the MiniRig, Bullet or Lever Bar drill rigs to safes and vaults. The MiniVac holds to most textured and smooth safe finishes with a few pushes on the pump. The 225 mm dia. soft rubber pad protects the safes paint, and an adjustable levelling arm maximises the holding power and provides drilling stability.

PRODUCT SPECIFICATION

- Diameter: 225mm

1/2" UNIVERSAL ADAPTER

Art. #MAG-MX-V.UA.500

PRODUCT DESCRIPTION:

Universal Adapter accessory allows the Strongarm MAGRIG to be used with almost every 1/2" Corded or Cordless Drill ever made. The Ball Bearing design allows for daily heavy-duty use in most strenuous applications.

PRODUCT SPECIFICATION

- The adapter's design allows for unrestrained drill pivoting, ensuring easy and comfortable positioning.
- Design also allows handle to twist away from user grip in the event of drill bit binding.

Founded in 2010, XHORSE is a rapidly growing technology company providing automotive security products and solutions.

Based in China they develop and produce all their products in house and are constantly researching and developing new and improved solutions for the automotive security market.

Their Key Tool Max has made waves here in Australia with its portability, functional design and universal Super Chip transponder that makes chip cloning a far more streamlined process whilst also reducing stock holdings.

NEW

KEY TOOL MAX - PRO

ART NO. *KTM-PRO*

PRODUCT DESCRIPTION

The Key Tool Max Pro is a very Powerful & Completely Stand-Alone Remote/Transponder Machine.

This new variation includes an OBDII cable, eliminating the need to purchase the XHORSE M-OBDDongle.

It also includes Battery test probes for testing voltage on a vehicles battery or the battery of a remote.

All existing purchased hardware like 8A Cable etc. can be combined with the new PRO version for existing KTM users that wish to upgrade.

KEY TOOL PLUS - ESSENTIAL

ART NO. **KT-PLUS-ES**

PRODUCT DESCRIPTION

The KEY TOOL PLUS - Essential is a great option for those wanting to upgrade their KTM whilst gaining much more expanded functionality.

This variation we offer contains the most important & most needed core features for Locksmiths Day-to-day use.

The Essential tablet can be upgraded to the full version at anytime by purchasing the software upgrade.

By excluding the more Niche software components we are able to offer the KEY TOOL PLUS -Essential at a special entry level price point for those continuing their XHORSE Journey!

And our support staff look forward to the ability to assist via Teamviewer, included on the KT-PLUS-ES

Remote Generation

- Generate Remotes that are separate to the Transponder.
- Generate Remotes that are integrated with the Transponder.
- Generate Smart/Proximity Keys.
- Transponder Cloning & Generation

Cloning Compatibility

- Texas Crypto DST+ - H key Clone
- Megamos Crypto - 8C
- Fixed Code - ID11, 12, 33, 40, 41, 42, 43, 44
- Texas Fixed - 4C
- Megamos Crypto - 8E
- Texas Crypto - 4D - (ID60- 71)
- Texas Crypto - Toyota 'G'
- Texas Crypto DST - 70/83 (80 bit)
- Philips Crypto - ID46
- Philips Crypto 2 - ID47,49 (Clone some)
- Megamos Crypto - ID48 (96 bit)

+ Advanced Transponder editing function

OBD Programming (Essentials version)

KEY TOOL PLUS supports over 20,000 car models worldwide. Easily select the car brands and car models on the immo programming interface by manufacturer name or A-Z word search.

* NOTE- BMW, MERCEDES & VW are not included in Essentials version

ART NO. **KT-PLUS-ES**

Immo Data Tool

For some cars, key programming cannot be achieved via OBD.

KEY TOOL PLUS comes with this utility to create a transponder from the vehicles eeprom file.

Use your existing eeprom reader to read the immo data, then use KEY TOOL Plus to generate an emulated transponder (XHSUP) from the file that will start the vehicle.

Hardware Technical Information:

- CPU: 8-core 2GHz
- RAM+ROM: 4G+128G
- Operation System: Android 9.0
- Screen Size: 10.1» HD Anti-glare; Anti-fingerprint. Super 10.1» anti-glare display enables top operation experience.
- Rear HD Camera: 13.0MP. The 13MP rear camera is designed to fit in multiple scenarios perfectly.
- Battery Capacity: 10000mAh. Long battery life and PD3.0 fast charge help keep you productive throughout your day.
- Charging: 30W Super Fast Charge
- Bluetooth: 5.0 Bluetooth
- WIFI: 2.4G/5G

Autoranging Multimeter

This practical multimeter measures both DC and AC voltages and currents. The default autoranging setting automatically selects the best range for your measurements. If a different range is preferred, simply switch it to manual. A built-in buzzer and LED warning light alert you to low resistance, detected voltage and live wires. In low light conditions you can activate the 10 second backlight to view measurements. Use the data hold button to lock them on screen for data capture and analysis.
